

## FBDCA Judge's Education Mentor & Presenter Handbook April 3, 2017

To become an FBDCA-approved mentor, an individual must:

- Maintain membership in good standing in the French Bull Dog Club of America;
- Have been a member of the FBDCA for at least ten years;
- Either be an approved AKC judge for French Bulldogs;
  - OR a breeder who has been breeding and exhibiting the breed for at least twelve years and had bred five champions;
- Successfully complete a FBDCA Mentor Guidelines Workshop;
- Attend a FBDCA-sponsored seminar;
- Submit a Mentor Qualification Application form to FBDCA's Judges' Education Committee for review.

Please note that these requirements are compatible with the AKC standards for ringside mentors with the additional requirements that FBDCA-approved mentors must be FBDCA members for at least ten years who have attended a parent club sponsored seminar and completed a FBDCA Mentors Guidelines Workshop.

All FBDCA mentors must attend FBDCA Mentor Workshops which deal the proper completion of AKC forms and reporting requirements, and how to mentor. Some mentoring guidelines include never offering a comment contrary to what appears in the Standard; and not offering opinions about people and kennels. The FBDCA JEC Committee would be glad to help all mentors in how to stimulate and answer questions, what things to consider and discuss, etc. Existing FBDCA mentors have two years to complete this workshop requirement or he/she will be deleted from the list of FBDCA-approved mentors.

The FBDCA reserves the right to remove a member from the mentor list for cause upon complaint to the Judges Education Committee. For cause includes violating any criteria published by the AKC or on the FBDCA website, or using their position to promote or disparage individual dogs.

**Please note:** FBDCA mentors prior to 2017 have three years to complete all requirement of the 2017 FBDCA mentor policy (i.e.: attend a FBDCA Guidelines Workshop and attend a FBDCA-sponsored seminar) before being deleted from the roll of mentors.

### MENTORING UPDATES

Per the 2009 update: Approved mentors will want to be aware of the recent revision to the Ringside Observation parameters established by the American Kennel Club. To quote the notice as published in the *Judges' Newsletter*: "**Effective immediately, qualified mentors will be allowed to participate in Ringside Observation on days they have entries in the breed they are teaching until the class at which they have an entry assembles. From that time on they are to refrain from further interaction.**" This, of course, allows approved mentors to be more easily available since many mentors are also French Bulldog exhibitors. But, exhibitors as mentors must clearly understand that as their class assembles, they MUST remove themselves from any area of mentoring.

The 2009 AKC policy required that a mentor maintain a list of people they have mentored and when. The mentor may not exhibit to that person for six months after the last date of mentoring. This policy remains a FBDCA mentoring policy. This policy avoids the appearance of impropriety. The FBDCA policy requires that each mentor submit to the JEC the names of the applicant judges he/she has mentored. This helps the JEC to monitor the effectiveness of the mentoring education and to facilitate remedial tutoring, if

needed.

Per the 2015 update: The new Judges' Approval Process effective September 1, 2015 now allows ringside observation mentoring at an AKC show "where a major in one sex has been entered."

## ***FBDCA Judges’ Education Presenters’ Study Guide***

This lengthy Study Guide attempts to prepare Presenters for some of the situations to which they may be exposed when presenting FBDCA Judges’ Education programs.

Completion is required and must be discussed at the Judges’ Education Presenters Seminar which is required before approval to be a FBDCA presenter is granted.

Presenter Seminars are held upon request. If a presenter encounters a problem/question that is unusual, please let the JEC know so we can add it/them to the list of items to be discussed and solutions found.

This is to HELP you. We have found that presenters who do a bad job lose credibility for the club, for the breed and for themselves in the show ring. Be prepared!

### **Practical tips for presenting when things go bad. Or OMG, how can the show go on?**

The best way is to anticipate potential problems. Be completely prepared with the materials and program. Here are some disaster scenarios and how to handle them.

The number one priority is to deliver an AKC-accredited seminar and workshop. Attendees will not be happy if they have spent time and money to attend a seminar/workshop that will not be accepted by the AKC!

- Can't get the projector to show the PowerPoint
- Forgot the seminar presentation
- Forgot the attendee packets of information
- There are not enough handlers for the number of dogs
- Not all the handlers can run
- There are fewer than four dogs for the workshop
- Not enough room to gait the dogs
- Forgot the AKC reporting forms

**Practical tips for presenting when there are disruptions.**

- One of the registrants is a “know it all.”
- One of the registrants disagrees with your statements
  - About the French Bulldog
  - About AKC procedure
  - About another breed
- One of the registrants has trouble grasping the information
- One of the registrants is disruptive
- One of the registrants leaves before the seminar is over
- Someone speaks ill of the French Bulldogs or a FBDCA member

What do you do if you disagree with something your Co-presenter says during a presentation (a personal opinion with which you strongly disagree)?

What do you do if your Co-presenter makes a mistake in what he or she says during a presentation? Mis-quotes the standard, mis-states a fact, describes another breed incorrectly. What do you do?

**Teaching the French Bulldog. Anticipate questions. Speak from ONE voice.**

If you had a limited amount of time to teach someone about the French Bulldog, what are the MOST important items you would discuss, and why?

If you only had four words to describe the French Bulldog what would they be?

What is the essence of French Bulldog breed type?

What do you consider to be the most serious problem(s) you are seeing in the Breed today? What are the “drags” of the breed?

How do we discuss body proportions? In what way is this different or

similar to how other breeds measure body proportions?

How would you prioritize the following traits in order of importance for the French Bulldog, and why? Head, Ears, Topline, Gait, Soundness, Body proportions, Size, Temperament, Correct tail set.

**Page 11**

What are the 3-5 things that a prospective judge **MUST** not ignore when physically examining a French Bulldog?

Describe head shape.

Describe the jaw. How do you examine it? What are you looking for? What deviations might you see and how important are they?

Describe ear size, shape and placement.

Describe correct movement front and rear.

Describe the topline.

What is the correct tail set and carriage?

What colors and markings are allowed? What are not allowed?

One way in which a judge learns a new breed is within the context of other breeds, by comparing and contrasting with similar breeds. With that in mind, how would you compare/contrast the French Bulldog with the Bulldog and the Boston Terrier?

Based on each standard, the purpose & history & appearance
